

# TO THE STUDENTS IN DRIVER'S EDUCATION AT WCHS

Welcome to WCHS's Driver's Education Program. This pamphlet will provide information about our program and bridge the gap between you, the classroom, the BTW instructor and your parent/guardian. **We want you to have a positive learning experience.**

It is very likely you have a keen interest in the many benefits a driver's license offers. Be aware this course is not designed to merely help you obtain a license. It is our goal for you to acquire low-risk driving behaviors that will serve you **a lifetime of incident free driving.**

We want you to be successful, but this course cannot guarantee you will be a good driver. Your personality, emotions, maturity, acceptance of responsibility, attitudes and perceptions play a vital role in the type of driver you become. It is our job, along with your parent/guardian, to help you acquire the perceptual, cognitive, physical and social skills necessary for you to become a conscientious and cooperative low-risk defensive driver. **Your commitment to excellence will directly affect your level of success in this class.**
